Tenant Name: _____

Property Address: _____

A tenant in a building I own has requested that Thames Valley Communications, Inc. ("TVC") bring cable television service to their residence. This work may require drilling through walls to bring a cable to the television set or computer. I/we fully understand the work TVC is about to do. I/We understand that any additional work requested by the property owner, which deviates from TVC's proposal; whether done during or after the completion of TVC's work, will be the responsibility of the property owner.

I understand TVC's request and give permission to wire the premises.
